Gem Ultrasonic Cleaning & Restoration Acquires M&B Blinds

October 6, 2016 - West Chester, PA - Gem Ultrasonic Cleaning & Restoration of West Chester, PA has formally announced their acquisition of M&B Blinds of Willow Grove, PA, which became effective on August 1, 2016.

Gem Ultrasonic Cleaning & Restoration is a privately owned ultrasonic and restoration company in Chester County, PA and is known as one of the best and most reliable ultrasonic cleaning companies in suburban Philadelphia and on the east coast. They are fully licensed and insured and have successfully served both residential and commercial clients on a national level since 2003. They have also proudly served many celebrities, such as: professional major league baseball player, Shane Victorino; celebrity hairstylist and founder of Wen, Chaz Dean; NBA player, Malik Allen; Comcast Sports Anchor, John Boruk, and 6 ABC's news reporter, Vernon Odom. In 2014, we were voted the #1 Blind Cleaning Company in Philadelphia by the public and myfoxphilly.com.

Gem Ultrasonic owner and president, Michael Tulli, says, "I am extremely pleased by our recent growth and to be able to expand our commercial client base with the acquisition of M&B Blinds. We promise to offer their clients the same outstanding service and great pricing that they had previously received from M&B. However with Gem Ultrasonic, they can now take advantage of not only more ONE-STOP, ONE-SOLUTION services but also a better and more thorough cleaning process called Ultrasonic Cleaning. This revolutionary process uses sound waves to remove dirt and debris. It is a safe and gentler way to clean blinds and other household and industrial items. **Ultrasonic Cleaning** eliminates unhealthy allergens, such as: dust, fungi, pollen, and harmful bacteria that become airborne. It is powerful enough to clean tough mold, soot and smoke damaged items, yet is gentle enough not to scratch, scar or break items from the ultrasound. In addition to blinds, electrical appliances, computers, printers, product bottles, machine and automotive parts, light diffusers, shades, draperies and much more can be cleaned using Ultrasonic Cleaning and can restore these items back to working and like new condition in almost all cases."

In addition to Ultrasonic Blind Cleaning, Gem Ultrasonic Cleaning & Restoration offers: Blind Repair, Blind & Window Treatment Sales, Ultrasonic Auto Parts & Other Household Items Cleaning, Carpet & Upholstery Cleaning and Window Cleaning. They are conveniently located at 323 South Matlack Street in downtown West Chester. Pickup and delivery are also available. To schedule an appointment, please call [610-429-0244](tel:610-429-0244) or for more information, visit www.gemsonic.com.
