

GEM ULTRASONIC CLEANING & RESTORATION

One Stop. One Solution. One Phone Call.

DISCOVER THE GEM ULTRASONIC DIFFERENCE AND A BETTER, SAFER & ECO-FRIENDLY WAY TO CLEAN...

We Have Been the Area's Leader in Ultrasonic Cleaning Technology for Over 10 Years!

Ultrasonic Cleaning is a revolutionary cleaning process that uses sound waves to remove dirt and debris. It is a safe and gentler way to clean blinds and other household and industrial items and equipment without harsh chemicals.

Ultrasonic Cleaning has many benefits. The process eliminates unhealthy allergens, such as: dust, fungi, pollen, and harmful bacteria that become airborne. It helps to prolong the life of your items, and therefore, saves you money on replacement costs.
